Call for Workshop and Tutorial Proposals & Late-Breaking Results Extended Abstracts

The 22nd International Conference on Ubiquitous Robots

June 30 – July 2, 2025, College Station, Texas, USA

The 22nd International Conference on Ubiquitous Robots (**UR 2025**) will take place from June 30 to July 2, 2025, at the Texas A&M Hotel and Conference Center in College Station, Texas, USA. **UR 2025** invites workshop and tutorial proposals that facilitate in-depth discussions and knowledge exchange on cutting-edge topics in robotics.

- **Workshops** should highlight recent advancements, foster discussions, and explore emerging areas of interest within the robotics community.
- **Tutorials** should provide comprehensive introductions to fundamental principles, methodologies, and novel robotic tools, making them accessible to a broad audience.
- **Late breaking results extended abstracts** (2-4 pages in the IEEE conference proceedings format) should report early-stage research outcomes.

Important Dates

April 4, 2025	Workshop & Tutorial Proposals Due
April 11, 2025	Late Breaking Results Extended Abstracts Due
June 30 – July 2, 2025	Conference Days
